- Pre-trip planning services that ensure you'll have the best vacation possible
- A dedicated, local concierge who works with you to create custom, detailed and over-the-top experiences

### Experience Description

For more than 1,000 years, the historic Castello del Lago (renamed Castello Thomson) has dominated the center of Lake Como off Northern Italy's famed 'golden shore'. Once connected by walls to the village of Varenna below, it served as its protector during the wars of the Middle Ages. The estate was transformed into an exotic getaway in 1980 by Venetian architect Tobia Scarpa for then owner and modern Italian furniture magnate, Piero Ambrogio Busnelli of B&B Italia.

The estate features a private lakeside boat slip and terrace, multiple patios perfect for al fresco dining, an olive grove and has statues scattered about the rambling gardens. The stone floors, vintage furniture, cabinetry and one-of-a-kind lighting fixtures by Tobia Scarpa have been lovingly restored by current owners Ron Thomson and Vania Giusto to create an authentic and worldly experience where the tranquility and natural beauty of the region are simply intoxicating.

With sweeping views of Lake Como from every window, guests can stay either in the castle or the chalet. Each two-story residence boasts three bedrooms and two bathrooms with access to a pool, rooftop terraces and living quarters complete with all the modern comforts of home.

Access to quaint villages along the lake like Bellagio, Varenna, Lenno, and the must visit village of Villa Carlotta, are just a water taxi ride away. Lake Como is also ideally situated for day trips to Lugano and St. Moritz in Switzerland, the Italian Alps, Milan, Portofino, Bergamo, Lake Garda, and Verona.

Marvel at the breathtaking scenery while exploring the area's art, luxury villas, and manicured gardens. This once-in-a-lifetime experience is perfect for relaxing in the unparalleled natural beauty and glamorous region that many celebrities call home.
